POWERPOINT PRESENTATIONS

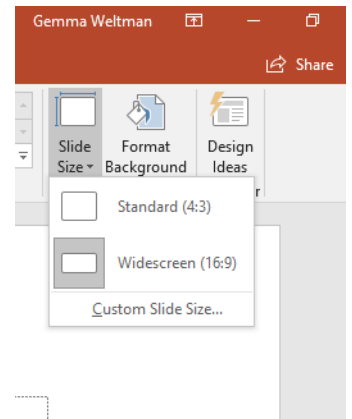

Speakers are strongly encouraged to upload their PowerPoint presentations via the speakers portal located on the Conference website, prior to the Conference (maximum 50MB). Alternatively, speakers are required to bring their presentation on a USB to the Conference and to visit the speaker preparation room **at least 2 hours prior** to the allocated presentation time.

This is to ensure your presentation is uploaded and tested.

Presentations must be completed in Microsoft PowerPoint. Should your presentation be in Mac format, it is imperative that this be converted to PC format prior to arrival at the Conference.

Note that the projector screens at the venue will be in 16:9 format. If you would like to adjust the slides prior to completing your presentation from 4:3 to 16:9 to avoid the black edges, then please follow these steps:

1. In PowerPoint or Office 365 choose the "design tab" then click on the "slide size" button.
2. In the drop-down box, select "Widescreen (16:9)".

You will be briefed on how to use the equipment when you meet with the audio-visual technicians.

If you upload your presentation via the speakers' portal, you are still required to visit the speaker preparation room to check your presentation and receive further information as applicable.

The speakers portal can be found [here](#).

EMBED YOUR FONTS

We encourage you to embed the fonts you are using in your presentation to ensure that they are displayed correctly during your talk. As each computer system and company can have its own unique fonts, they may not appear correctly if the font is not embedded into your slides.

To embed your font into your PowerPoint presentation:

1. Click File > Options > Save As > Browse
2. In the dialog box, click Tools > Save Options on the lower right hand side.
3. Scroll down to where you see the embedding options at the very bottom and check that 'Embed fonts in the file' and 'Embed all characters' are both selected.
4. Click 'Okay' and then save the presentation.

Now that your fonts are embedded into your PowerPoint file, you can now share the file or upload to the internet and keep all fonts displayed exactly as in the original PowerPoint.
